Read and Interpret Mathematical Statements Involving Addition

Look carefully at the sums below. Are they right or wrong? Use dots to check and then mark the sums with a tick or a cross. An example has been done for you. If you find any mistakes, correct them!

Writing Mathematical Statements Using Plus, Minus and Equals

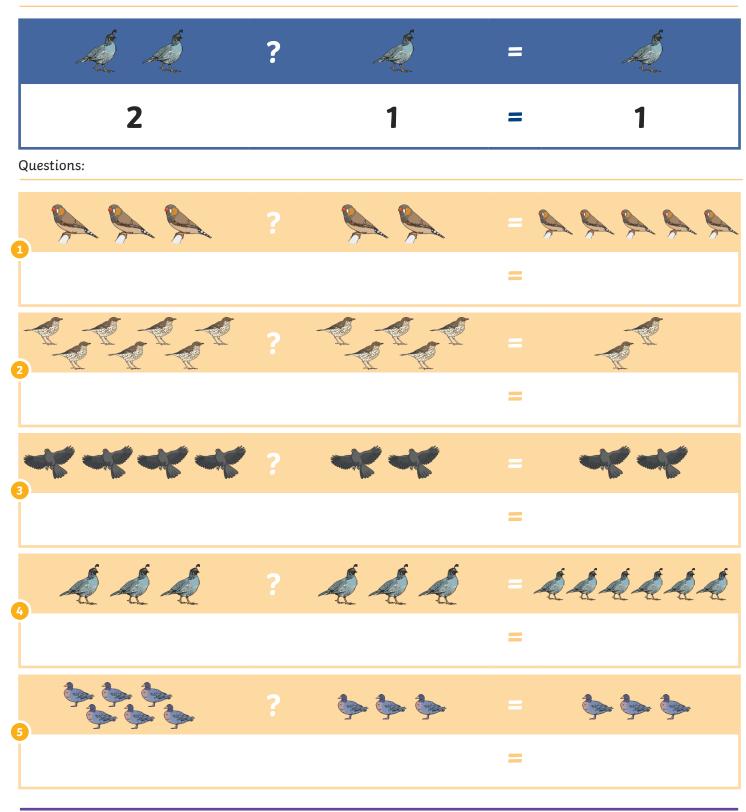

Count the objects in the following pictures to turn them into numbers and create mathematical statements in the row underneath.

Mixed Number Bonds to 20 on Robots Worksheet 2

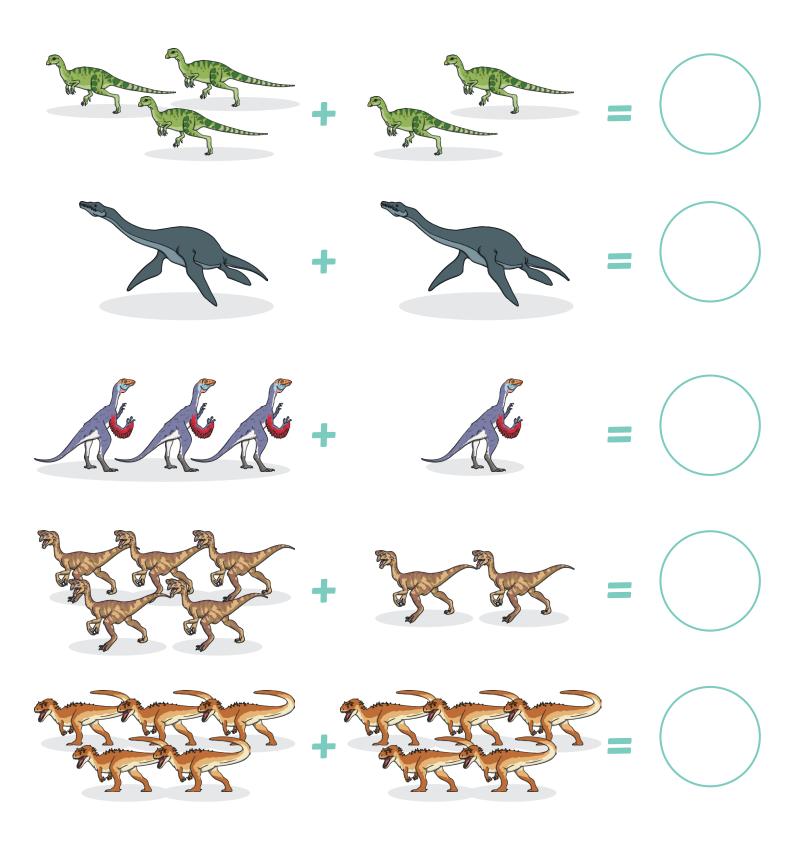

Each grid has ten boxes in it. Count the number of boxes with an 'X' in them and then put 'O's' in the rest of the boxes or colour them if you prefer. Count them up and write in the number bond to 10 you have made. The first one has been done for you.

1	x	x	x	0	0	0	0	0	0	0	3 + 7 = 10
2	x	x	x	x	x						5 + = 10
3	x	x	x	x	x	x					6 + = 10
4	x	x									2 + = 10
5							x	x	x	x	+ 4 = 10
6	x	x	x								3 + = 10
7	x										1 + = 10
8	x	x	x	x	x	x	x				7 + = 10
9					x	x	x	x	x	x	+ 6 = 10
10											0 + = 10

Write the answers in the circles.

Questions:

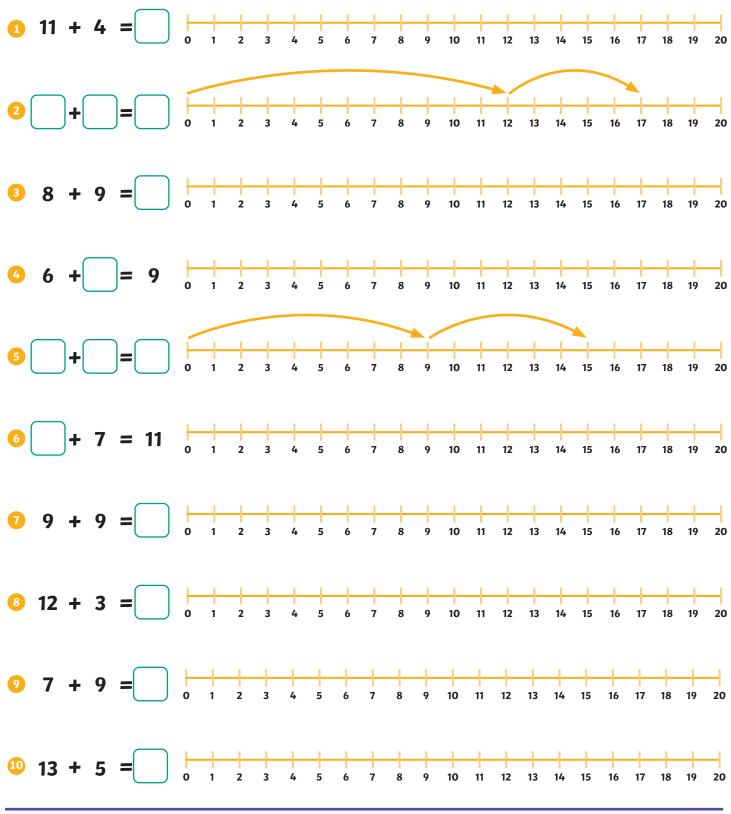

For these questions, can you work out which sums are being shown on the number lines? The first one has been done for you.

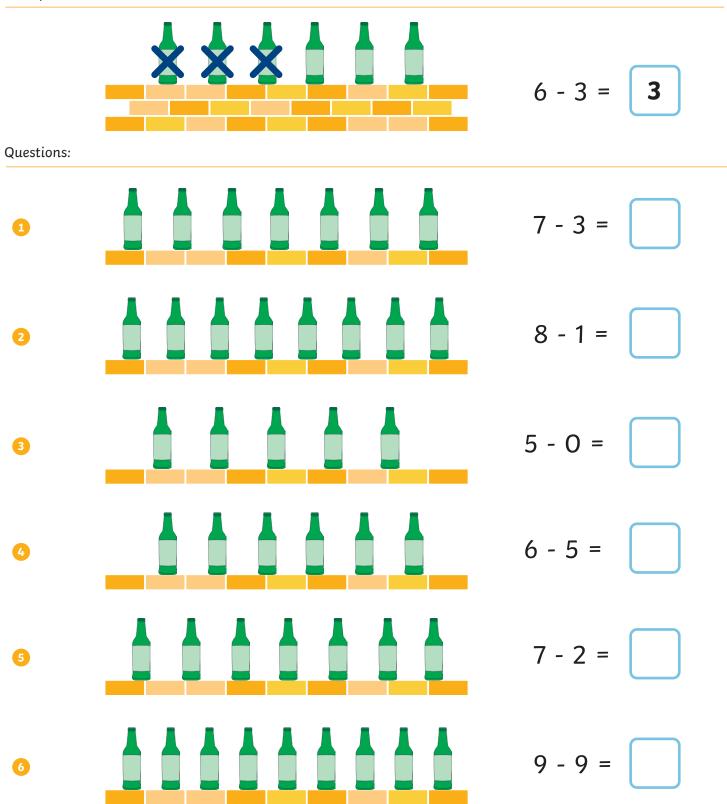

Practice what you have learned so far on a number line to 20 and progress to see if you can draw your own number line!

Use crosses to knock the green bottles off the wall. How many are left?

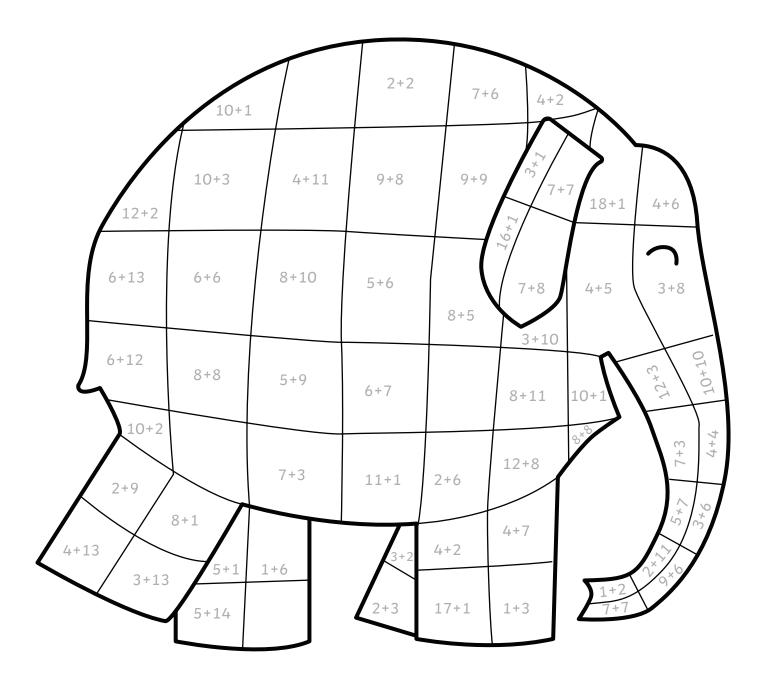

Solve the sums in the boxes to work out what colours they should be!

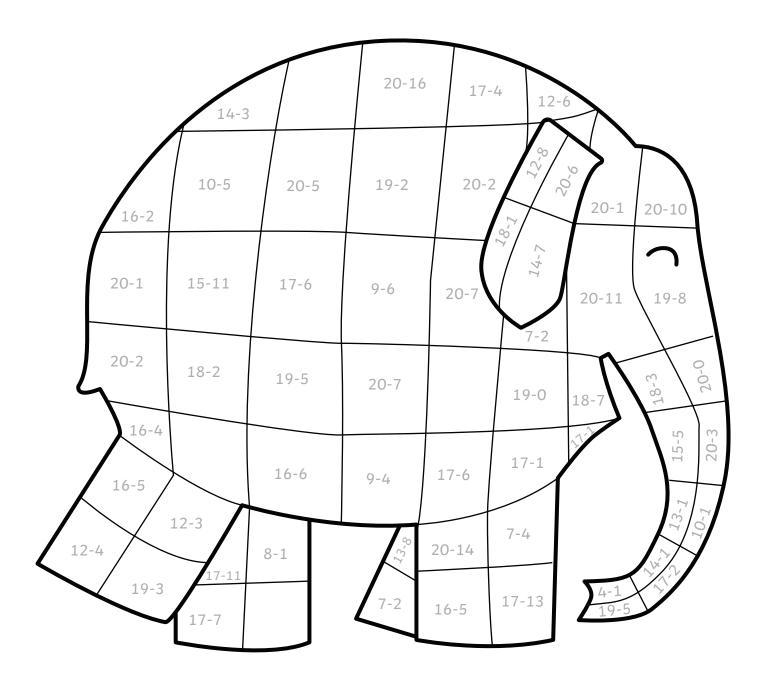

3 or 11 = Yellow	4 or 12 = Orange	5 or 13 = Blue
6 or 14 = Red	7 or 15 = Purple	8 or 17 = Black
9 or 18 = Pink	10 or 19 = Green	16 or 20 = Any colour!
